

Hypnosis For Abdominal Pain

Hypnosis for abdominal pain works!

With our exercises and the self-hypnosis workbook you can help yourself to get rid of your stomach pains, simply at home without visiting a doctor or a therapist.

For you

Do you suffer from chronic abdominal pain? Then hypnosis can help you very well. We have developed a treatment that you can do all by yourself. With 5 easy listening exercises that will relieve and reduce your symptoms. And you know what's so nice? You can do it at home, anytime of the day, in your own room. You can find more information about this hypnosis treatment including some videos on our website hypnosis4abdominalpain.com

For your parents

Worldwide, about 10 to 15% of the children suffer from chronic abdominal pain. Several years ago, it was shown in a large scientific study that home treatment with hypnosis exercises is a very effective treatment.

With this treatment, consisting of 5 hypnosis exercises and an accompanying workbook, children listen to one or two short hypnosis exercise every day, according to the instructions in the workbook. After a few months, 70% of the children have much less pain or no abdominal pain at all anymore. Children go back to school, have more confidence and sleep better. Their quality of life has improved and they are happier!
